

Central Jersey Regional Library Cooperative presents...

CLOUD COMPUTING: AN INTRODUCTION

Led by **Janie Hermann and Scott Sanicki,**
of Princeton Public Library

Thursday, November 5, 2009

9:30 am – 12:00 pm
(coffee at 9:00 am)

HANDS-ON, SPACE LIMITED!

Cost: \$30

Please make checks payable to
CJRLC, 4400 Rt. 9 So., Ste. 3400, Freehold, NJ 07728

Interested in an inexpensive way to share and access your files and documents from anywhere? Then cloud computing might be for you!

Data and services are being migrated to "the cloud" at a rapid rate, but what does this mean for libraries? More importantly, what exactly is the cloud and what are the practical uses that can be applied to improve our own work flow as well as provide service for our patrons?

There is no doubt that cloud computing is changing the way we access and store data. This talk, given by Princeton Public Library's Scott Sanicki and Janie Hermann, will look at several aspects of cloud computing. Trends and advantages (as well as drawbacks) will be examined and practical advice on how you can take advantage of "computing in the cloud" will be given in this **HANDS-ON** class.

By the end of this session participants will be able to:

1. Understand the basics of the cloud computing model & how it applies to libraries
2. Identify possible uses of cloud computing for both library staff and patrons alike
3. Gain hands-on experience using a few key cloud computing applications.

To register,
call the office at **732-409-6484**,
or, go to: <http://tinyurl.com/CJRLCcloud>

CJRLC and its services are funded by the New Jersey State Library,
which is responsible for the coordination, promotion and funding of the New Jersey Library Network.
